

# The Big, Big Bag. . . Make It With More

**More fabrics that is!** For a bright and jazzy look, you can make your Big, Big Bag from an assortment of fabrics. To make it easy, start with six different fat quarters for the outside of the bag, then make these simple adjustments to the instructions.

Follow steps 1 through 3 beginning on page 21. Then trim the six fat quarters of fabric into 17½" x 19½" pieces. Sew them together into one 51½" x 38½" piece.

Return to step 4 and continue with the steps to complete your multifabric bag.
